

The following is a list of all BHS boats that have taken top three at a major regional regatta or attended a national regatta. Note that the BHS Men's and Women's Crew were organized as separate teams before merging in 2004.

With great thanks to Brandon Caesar, BHS Crew alum, who compiled this list.

This is a work in progress. If you rowed or coxed a BHS boat or you personally witnessed one meeting the above qualifications and that information is either missing or incorrect please contact us to have it corrected.

Notes on Race Results:

- Youth National refers to the US Rowing Youth National Championship held in Cincinnati. Before the 1995-96 season it was known as the Youth Invitational.

- The Scholastic Rowing Association National Championship is a regatta open only to school teams (private and public) in the US. The Women's team made a decision to go to it rather than San Diego starting in the spring of 2006.

- CJ's and SW Reg. are the same regatta. Before 1992 it was the state championship for California and was called the California Junior championship. In 1992 it expanded to include teams from the entire Southwest Region, but only gradually added teams from outside California. It currently includes teams from California, Arizona, Utah, and Colorado, but the majority of teams in the US Rowing Southwest Regional Championship are still from California.

- San Diego refers to the San Diego Crew Classic held about half way through the spring season each year. All events are eights races and it features teams from all over the country, but the Southwest region makes up the bulk of the teams, followed by the Northwest region. Medals are only given for first place. Not all BHS teams have attended each year.

- The Pacific Rim Championships occurred only in 1983 and was open to teams throughout the Pacific Rim but as it turned out it only included teams from Oregon, California, and Washington that year.

- If a year is not listed that means I do not know of the results. If I know that no medals were won during a year that year is listed with "None."
